

smart

quality at the best price

**WALO**  
PROFESSIONAL

The SMART line represents the ideal compromise between cost and performance, in the respect for the environment, typical of all WALO products. Hood and double-walled insulated undercounter dishwasher and glasswasher, with a choice between easy to use electronic control and electromechanical control. The SMART line includes the circuit option with atmospheric boiler (which allows a constant pressure of the rinse water in all conditions of installation), completely molded tanks and rails, and integrated wash and rinse arms.

## Hood dishwasher

- S-KA** | electronic hood dishwasher with atmospheric boiler
